

## Construction

Jones Walker's Construction Law attorneys offer a broad range of construction-related legal services. The team works closely with other attorneys in the firm, such as the environmental and toxic torts practitioners, to ensure that each matter is handled as effectively, efficiently, and economically as possible.

---

### Noteworthy

Construction law attorneys are involved in many legal, educational, and industry organizations, including:

- ABA Forum on the Construction Industry
- ABA Litigation Section Construction Law Committee
- Associated Builders & Contractors Bayou Chapter
- Louisiana Associated General Contractors, Inc.
- American Society of Heating, Refrigeration and Air Conditioning Engineers
- Construction Specifications Institute
- University of Wisconsin-Madison, College of Engineering

Our attorneys have authored papers and presented programs, both at the local and national level, on a variety of construction law issues, including claims, claim avoidance, commissioning, damages, indoor air quality, public and private works acts, and public bid law.
